Soladex flow chart and data output powered by SSI

Solar output metering system from solar inverter Manufacturer

Solar panel monitoring

Smart battery management

Customized outputs for customer
And energy management software

Suacci Solar Index
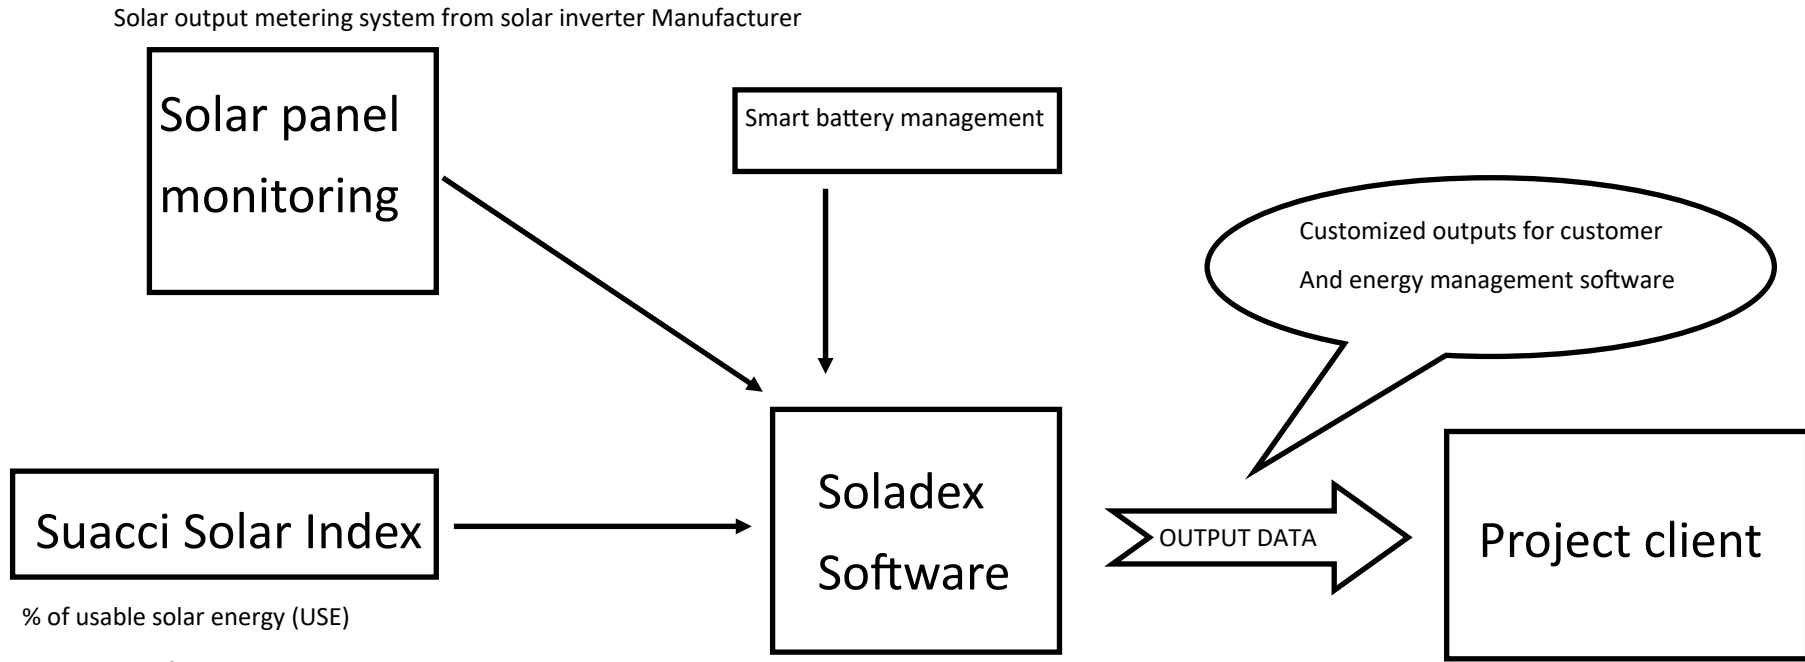

% of usable solar energy (USE)

Temp, time of year, weather

Soladex Software

OUTPUT DATA

Project client

Customer Consumption

Customer installed metering system measuring power usage in building

Soladex app output data:

System performance & Soladex % rating

Performance reports in real-time, archive and Forecasts

Customer guarantee comparisons

System upgrade suggestions

System maintenance reports
